

BG100 Battery Operated Grease Gun

GREASING EQUIPMENT - BATTERY OPERATED

Macnaught's unique design gives the unit balance and makes routine greasing quicker and easier to carry out, also reduces operator fatigue.

A 12volt NiCad battery powers this ergonomically designed grease gun.

A fully charged battery has the capacity to empty 3 grease cartridges and has a quick recharge capability of just 1 hour from flat. The BG100 is supplied in a heavy-duty moulded carrying case to safely store the unit when not in use.

FEATURES:

- Ergonomic design provides simple one-handed operation
- Continuous operation for faster greasing
- 30" (762mm) flexible dispensing hose (standard) for hard to reach areas
- Fitted with an internal pressure relief valve.
- Unit will dispense 60g per minute (free flow)
- Suitable for use with greases up to NLGI No. 2
- Includes carry case, battery charger and spare battery

10 Year Warranty excludes battery and charger

TECHNICAL DATA

Overall Dimensions:	380 x 305 x 72mm
Weight:	3kg (6.6lb)
Pumping Mechanism:	Rotary
No. of pistons:	2
Trigger function:	Continuous operation
Maximum Pressure:	5000psi
Flow:	60 g/min (2.11 oz/min)
Minimum temp:	0oC/32oF
Maximum temp:	50oC/122oF
Battery voltage:	12volt NiCad
Battery capacity:	1300mAh
Est battery life:	Approx. 3 cartridges
Charger style:	Fast charger
Battery recharge time:	1 hour
Filling options:	bulk, cartridge (400g), J2 grease pump
Filler/Bleeder nipple:	1/8" BSP (M)
