

## K7 Mini-Lube

### GREASING EQUIPMENT – HAND OPERATED

The K7 MINI-LUBE is a portable manual greasing system designed to fit grease pails\* from 2.5kg (5lb) to 5kg (11lb) and includes a unique KR grease gun that delivers grease at either high volume or high pressure up to 69,000kPa/10,000 PSI/690 BAR. When on the high pressure setting blocked grease nipples can be easily cleared. The fully sealed system ensures that your grease is kept free from contamination that destroys bearings and causes expensive down time.

To operate the K7 MINI-LUBE, press the foot plunger. This will prime the pump and provide you with 30 shots of grease through the KR grease gun. The rubber edged follower ensures you use all the grease in the container.

#### FEATURES:

- Two speed KR grease gun delivers up to 69,000kPa/10,000psi/690 bar
- Spring loaded pump provides 30 shots of grease
- 1.5m (5ft) Delivery Hose
- 360° swivel prevents the hose from kinking
- Rubber edged follower provides wipe down of container walls
- Fully sealed system keeps grease clean
- Delivers approx 1.25gms on high volume switch
- Delivers approx 0.45gm on high pressure switch
- Suitable for use with greases up to NLGI No. 2 (fits 3kg tin)

The Mini-Lube is also available with a refillable container.  
Models K7-24 2.5kg (5lb) & K7-67 5kg (11lb).

\* Note: Custom-made models available for non-UK spec grease pails. UK standard size is 3kg
